LOTS OF SERVICES FOR TEK'S ENTREPRENEURS!

Did you know that TEK also supports you in all phases of entrepreneurship? Already roughly six percent of TEK members are full- or part-time entrepreneurs. You will not find such a comprehensive package of benefits and services at such a fair price anywhere else. The membership fee of unemployment fund KOKO is deducted from the membership fee of entrepreneurs.

Lawyers specializing in entrepreneurship
TEK has lawyers specializing in entrepreneurship who help members to e.g. establish a business and prepare contracts and in questions related to an entrepreneur's unemployment security and board membership. Employers receive help from the TEK employer advice service.

Network in the TEK Entrepreneurs' Club
The TEK Entrepreneurs' Club brings together TEK entrepreneurs and those interested in entrepreneurship. Club evenings and social media channels allow you to meet other like-minded people and receive valuable peer support.

Numerous guides and contract and document templates
Our guides help you to e.g. draw up commission and shareholders' agreements. Fondia's Virtual Lawyer is a service where you can find hundreds of contract and document templates.

Extensive service package of the Federation of Finnish Enterprises
An entrepreneur member of TEK can obtain the extensive service package of the Federation of Finnish Enterprises (EUR 96 in year 2022) without having to become a member of the FFE. The service package provides access to the membership benefits of the FFE.

Liability and legal expenses insurance
Entrepreneurs who have no employees working for them and are the sole owners of their business are covered by liability and legal expenses insurance as members of TEK.

Entrepreneur's unemployment security
A self-employed person and an entrepreneur can also take out insurance against unemployment. The insurance is provided by one of the entrepreneurs' own unemployment funds, such as The Unemployment Fund for Entrepreneurs.
